

# Setting Up Application Environment

## Create An Account Sendgrid

TEAM ID: PNT2022TMID17287

SENDGRID ACCOUNT CREATION:

Sendgrid Account:

The screenshot shows the Twilio SendGrid dashboard interface. On the left is a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as NEW). At the bottom of the sidebar, there is a 'REPUTATION' bar at 100% and a link to 'VIEW ACCOUNT USAGE'. The main content area has a header 'Welcome, R.Jeson!' with a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue banner that says 'Send your first emails with Twilio SendGrid'. The main section is titled 'Create a sender identity' and explains that a sender identity is the 'from' email address. It offers two ways to create one: 'Create a Single Sender' (highlighted with a blue button) and 'Authenticate a domain Instead'. An illustration shows an email header with 'Your Business' as the sender and '<jane.doe@your\_business.com>' as the email address. At the bottom, a grey box says 'Send your first email' and includes a note: 'Please create a sender identity before sending your first email.' with a lock icon.

**Welcome, R.Jeson!**

To get up and running quickly, please follow the steps outlined below.

**Send your first emails with Twilio SendGrid**

**Create a sender identity**

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain Instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

**Send your first email**

Please create a sender identity before sending your first email.
